All,

I received this information earlier today from our Broward County Commissioner Chip LaMarca:

Eastman Aggregate (contractor) is starting sand placement surveys and laying out the project on Monday. This is the first phase of the work. They are coordinating with the sand mines as well. We will hold the public meeting next week (shooting for Mon/Wed now). This meeting will give us the opportunity to show the public the full construction schedule by area (including buildings).

I have requested a copy of the contract with the company hired (Eastman Aggregates) to complete this project. All of the information that the Commissioner has provides emanates from Nicole Sharp - Broward County Beach Administrator. We are all anxious to see the sand placed on our beach, hopefully we are in

the final stretch of this long arduous journey!

Best Regards,
Pio R. Ieraci, CIPS, LCAM
