## **Executive Airport (FXE)!** On March 11th, 2022, Fort Lauderdale Executive Airport (FXE) celebrated it's 75th Anniversary with a gala dinner held at the Sheltair hanger! The gala

celebrated the accomplishments that FXE has had over the years as well as the many partners who have helped make this one of the premier airports in the country.

and founder of the third generational family-owned company, Sheltair. During the late 1970's, Jerry found an opportunity to add airport property development to his company portfolio by executing projects at the Fort Lauderdale Executive Airport. These developments would give birth to Sheltair while also marking the start of his legacy in the general aviation industry

Free chlorination is a common preventative maintenance procedure for water systems using chloramines for disinfection. The City expects the chlorination period to be transparent to our neighbors; however, some may notice a slight change in the taste or smell of their tap water. In addition, neighbors may see fire hydrants running in their neighborhoods, which is part of the normal Flushing fire hydrants is a routine part of the maintenance process. free chlorination process. The City of Fort Lauderdale maintains the highest standards to ensure that clean, high quality drinking water is delivered to our neighbors. The City's water meets federal, state, and local primary drinking water standards.
